

## **St Peter's Catholic Primary School Phonics overview.**

St Peter's is currently in the process of transitioning to the Monster Phonics scheme for Nursery to Year 2.

Children will be introduced to the ten monsters of Monster Phonics Land who will assist them in learning and recalling spellings using colours bringing phonics to life.

Nursery will focus on the seven aspects of phase 1 phonics, where they will tune into the sounds around them and begin to develop oral blending and segmenting skills.

Reception will build on that learning and introduce children to the 44 phonemes and develop pupil's blending and segmenting to support word recognition.

Years 1 and 2 will continue developing children's reading skills recalling previously learned sounds and introducing alternate versions and new sounds.

Children will participate in daily lessons of phonics to prepare them for the Year One Phonics Screening Check and will continue to develop their word recognition and writing skills to encourage a love of reading.
